Exceptional Administrative Leadership Award

Breann Streck, Senior Director of Operations, RiverStone Health, MT

Breann Streck is an outstanding patient advocate, consistently seeking to improve the patient experience, and supporting respect for patients with each encounter. She began her career at RiverStone Health as a new graduate with a Bachelor's of Science in Nursing as a staff nurse in the health center, showing kindness and compassion to patients regardless of background or circumstance, then progressively took on more responsibility, as a Team Leader, a Clinic Manager, and then moving to Quality & Informatics.

Breann helped successfully shepherd the transition to electronic medical records in 2008 and 2009. She then took the lead on achieving NCOA Patient Centered Medical Home Recognition for all four health center locations, and became an NCOA PCMH Certified Content Expert. Later, she led the effort to achieve NCOA Distinction in Behavioral Health for the main clinic.

Breann left RiverStone for three years to gain more experience in another health care system and returned to RiverStone Health in 2014 to serve as Senior Director of Operations. She has led and participated in countless projects to expand services and enhance or improve workflows.

Breann has a keen operational sense and is able to define processes and clearly communicate with team members, generating enthusiasm from them to carry out new projects and implement new procedures. To say that Breann is hardworking and committed to patients and their well-being is an understatement. She continues to be a tireless advocate for patient engagement and empowerment. Breann serves as a role model for health center staff as one who has dedicated her career to lifting up the underserved in her community and improving the health and well-being of others.

For her outstanding patient advocacy and commitment to the CHC mission, we are pleased to present Breann Streck with the CHAMPS Exceptional Administrative Leadership Award.
