Who are Special and Vulnerable Populations?

Special and Vulnerable Populations are populations with unique social, cultural, and communication factors affecting culturally and linguistically competent healthcare access and utilization.

In addition to those listed on the left, other Special and Vulnerable Populations include:

- Aging Populations
- American Indian/Alaska Natives
- Asian American, Native Hawaiian, and other Pacific Islanders
- Extremely Low-Income Individuals
- Immigrants
- Incarcerated People
- Justice-Involved/People Returning from Incarceration
- Patients Best Served in a Language Other than English (LOTE)
- People Living with HIV
- People with Disabilities and Neurodiverse People
- Racially Minoritized People
- Refugees
- Rural Populations
- School-Aged Children

4th Street Clinic, Salt Lake City, UT
