Live Broadcast Date/Time:

12:00–1:00pm Mountain Time / 1:00–2:00pm Central Time

Series Overview:
Join Community Health Association of Mountain/Plains States (CHAMPS) and Colorado Community Health Network (CCHN) for the "Lunchtime Learning” Professional Skill Development Distance Learning Series! These six one-hour webcasts will take place between April and September of 2015. Participants may attend any selection of events; all are designed to provide professional development and skills improvement as a component of a continuous process of advanced practice transformation, with the goal of positively impacting retention rates at Region VIII health centers. The events are primarily targeted at health center administrative and clinical support staff, although staff members from all levels of the health center are welcome.

Event Overview:
This event will introduce the ‘Problem Solving Model,’ designed to improve understanding about the stages of a problem and why delivering empathy and asking appropriate questions will help reduce stress and increase effectiveness when resolving personal issues or coaching someone else to do the same. Participants will learn how to remain calm and confident in problematic situations, clarify who is in the ‘circle of concern,’ recognize when someone is dealing with a problem, gain tips for dealing with emotional responses, and move the conversation forward toward a solution.

Learning Objectives:
By the end of the session, participants will:
1. Define a problem
2. Learn the natural stages of a problem
3. Recognize specific behaviors in each phase of the Problem Solving Model
4. Learn the importance of demonstrating empathy to help at different stages
5. Review key phrases you might use at each phase to move the conversation forward
