MPCN Steering Committee

The MPCN Steering Committee guides the development of CHAMPS’ clinical programs to ensure the programs meet the needs and challenges of MPCN. The MPCN Steering Committee is comprised of up to four members from each of the six states in Region VIII with an intention of including at least one medical provider, one oral health provider, and one behavioral health provider, although members are not limited to these disciplines alone and may represent another clinical role as well. In addition, one quality improvement (QI) consultant sits on the committee.

The MPCN Steering Committee meets every other month via online video conferencing and once a year in person.

Serving on the MPCN Steering Committee is a great opportunity for providers to gain professional committee experience, network with peers and colleagues, and provide input into CHAMPS programs and services.

Positions on the MPCN Steering Committee are open! Contact the CHAMPS Clinical Quality Improvement Director if you are interested.
