### Patient Testing

#### Health Centers with COVID-19 Testing Capacity, Virus Detection (PCR, antigen)
- 92.00% (50) (83%)

#### Health Centers with COVID-19 Drive-Up/Walk Up Testing Capacity, Virus Detection (PCR, antigen)
- 76.05% (460)

#### Average Turnaround Time for COVID-19 Test Results, Virus Detection (PCR, antigen)
- 2.11 hour
- 0.33 hour or less
- 0.83 hours
- 24 hours
- 3-3 days
- 4-5 days
- More than 5 days

Patients Tested for COVID-19, Any Test Type:
- 2,362
- 190 (83%)

Racial and/or Ethnic Minority Patients:
- 2,228

Racial and/or Ethnic Minority Patients:
- 15.16%

Patients Tested for COVID-19, Virus Detection (PCR, antigen): 12,169

Racial and/or Ethnic Minority Patients:
- 82.50%

Patients Tested Positive for COVID-19, Virus Detection (PCR, antigen): 2,969

Racial and/or Ethnic Minority Patients:
- 82.50%

Patients Tested Positive for COVID-19, Virus Detection (PCR, antigen): 2,969

Racial and/or Ethnic Minority Patients:
- 21.16%

Patients Tested Positive for COVID-19, Antibody Detection (serology): 329

Racial and/or Ethnic Minority Patients:
- 31.77%

Patients Tested Positive for COVID-19, Antibody Detection (serology): 329

Racial and/or Ethnic Minority Patients:
- 20.87%

Patients Tested for COVID-19, Virus Detection (PCR, antigen): 176,955

Racial and/or Ethnic Minority Patients:
- 53.90%

Racial and/or Ethnic Minority Patients:
- 49.79%

Racial and/or Ethnic Minority Patients:
- 41.74%

Racial and/or Ethnic Minority Patients:
- 14.96%

### Operations and Staff

#### Health Center COVID 19 Survey - Region VIII Weekly Summary Report

#### Health Center Weekly Visits Compared to Pre-COVID 19 Weekly Visits
- 69-82% (1,006 (73%))

#### Health Center Sites Temporarily Closed
- 53

#### % of Health Center Sites Temporarily Closed
- 1.17%

#### Staff Tested Positive for COVID-19, Virus Detection (PCR, antigen)
- 37

#### Health Center Staff Unable to Work (due to site/service closure, exposure, family/home obligations, lack of PPE, etc.)
- 6.99%

#### Average Percent of Health Center Visits Conducted Virtually
- 7.33%

#### Health Centers with an adequate supply of PPE for the next week:
- Surgical Masks 98.00%
- N95/PPR Masks 94.00%
- Gloves 96.00%

---

1 Only health centers that responded having COVID-19 testing capacity are included, n=15.
2 The reported number of patients tested do not represent the same patients included in the reported number of patients tested positive due to a lag between the date the specimen is collected and the availability of test results. Positivity rates cannot be inferred by dividing patients tested positive by patients tested for this reason.
3 "Any test type" includes virus detection and antibody detection testing numbers. Care should be taken when drawing conclusions from combined testing numbers or in racial/ethnic minority percentages. Comparison of data in later weeks or in racial/ethnic minorities is subject to interpretation as the nature and purpose of antibody detection tests evolve over time.
4 Percentages may not add to 100% due to rounding to the hundredths.
5 Includes Hispanic/Latino and Non-Hispanic/Latino.

---

**Data represents information provided by health centers funded through H80 grants from a single, specified reporting date as indicated above. Summary information across report dates is not comparable due to differences in which health centers responded for a given report date.**
