Region VIII Health Center* Fact Sheet

Region VIII = Colorado, Montana, North Dakota, South Dakota, Utah, and Wyoming

The health centers within the Bureau of Primary Health Care (BPHC) Health Center Program provide high-quality, affordable, and accessible primary health care, most often to indigent, medically underserved, and underinsured populations in a wide range of communities, from inner cities to rural expanses. As of 2016 there are more than 1,420 health center organizations operating in the United States, serving over 26.5 million people. These include community health centers, school-based health centers, migrant health centers, health care for the homeless centers, and public housing primary care health centers. Each of these health centers must:

- Be located in an area of high need
- Be open to all regardless of ability to pay
- Provide services that fit the needs and priorities of the community
- Offer primary care and other services to ensure access (translation, transportation, etc.)
- Provide high quality care, reducing disparities and improving patient outcomes
